Avis Important

Afin que nous puissions mieux servir notre clientele Francaise nous avons engage les services de Mr. Alex. Villeneuve, d'Ottawa. Il a 11 ans d'experience dans la quincaillerie et feronnerie dans cette ville et est tres au courant de differentes branches de ce metier.

Le Francais etant sa propre langue il pourra facilement mieux vous servir que tout autre qui ne le parle pas. Il est naturellement plus a meme de vous servir d'une maniere satisfaisante. Nous esperons que cet essai que nous entrons en faveur de notre clientele Francaise recevra votre entiere approbation et qu'il aura le double avantage de nous attirer votre patronage et de vous rendre plus faciles nos relations commerciales avec nous.

League Baseball in Red Deer

Calgary, Edmonton, Bassano and Red Deer in League

With very little effort the sum of twenty-five hundred dollars has been raised in Red Deer for the purpose of supporting a ball team in town this summer.

The Alberta League was up against it, and Red Deer sports stepped into the breach and are doing their utmost to back up good ball this season.

At a meeting in Mayor Welliver's office, Monday night, T. A. Gaetz was elected President and J. LaFrance Secretary of the team, and they left for Calgary last night to make final arrangements.

Games will start some time in May.

Red Deer will, therefore, see the best ball of the west played here this summer, and it will be a great advertisement for the town.

Council of the Board of Trade

A meeting of the Council of the Board of Trade was held in the Secretary's office, Tuesday morning, at 10.30. The minutes of the last meeting were read and approved, and the following accounts ordered paid: Gaetz-Cornett \$12.70, Western General Electric Co. \$1.35, G. E. Fleming \$7.00, J. R. Davidson \$2.70, J. Horn \$1.50, P. Gosney \$1.50, Postage \$10.00.

The Commissioner reported that he had arranged to take up the question of park reservation with Capt. Cottingham some time this week. That a copy of the report of the committee on the interurban railway had been forwarded to Mr. Drummond, and he had been asked for a date at which he could come to Red Deer. No reply had yet been received.

The question of fixing a road on Section 22, that would give the people on the other side of the river access to Red Deer in winter, and at low water, was taken up, and a committee, Messrs. J. Malcolm and J. E. Cunningham, were appointed to look into the matter further and report to the Council.

The question of trackage was discussed at some length, and there was some question as to the rights of the town under the Red Deer Charter and the new Town Act. The Secretary was instructed to write the Commissioners, asking if the town could not take action to purchase the trackage now under option by the Board of Trade, and calling their attention to the urgency of the matter.

A letter was read from Toronto "Saturday Night" asking for information regarding accuracy of some real estate advertising. The Secretary was instructed to write them at length.

The President reported for the committee to arrange for a canvass for funds, that the same would be undertaken at once.

Red Deer West—close in, convenient and easy of access.

The farmers are busy ploughing. The water wagon was out for the first time yesterday.

New line of home-made candies at Hobart's.

John Quigg, barrister, solicitor, etc., of Olds, Alta., will open an office in Red Deer, over R. B. Welliver's office, on or about the 18th inst.

Pitcox News

Several of the Pitcox people, including the writer, were lucky enough on Saturday last to meet Mr. Michener, M.P.P., and his secretary, Mr. Hunter, returning from the Mountain House. An hour's chat with him about roads and demonstration farms made us think we had a friend in him who was looking after the farmers' interests.

Would Mr. Sifton take the trouble to discuss mud holes, or would he rather discuss parliament buildings, demonstration farms and mythical railways. Which is the best, to build up the cities first, or help along the farmer and so help the city. Think this out, fellow farmers.

Le N. McCordie has rented Bob Edgar's quarter section and has arrived from the States and is putting it under cultivation. Still they come.

Robert Edgar has taken on the insurance business, representing the Manufacturers Life Assurance. He is doing good business and deserves it; he is a hustler.

W. R. Edgar has nearly 2000 bushels of seed oats for sale, Early Scotch, tested 90 per cent. We can grow them here, don't you know.

W. Edgar, popularly known as Willie, surprised a golden eagle while eating a prairie chicken. The rascal Willie bashed it with a club, and the result is Mr. Grant of Red Deer has a job to set one up.

Jerry Macdonnell, of the store, is visiting friends in Scotland. We hope he is enjoying his trip.

C. A. Wells had the misfortune to cut his foot with an axe while trimming building logs on Saturday last. We hope it will soon be better and that he will be around again.

You would have to be an aviator, and so would your horses, to get over some of the government bridges I could mention.

Doctor Wall and W. Whittle, south and west of here, made trips to Red Deer this week.

Mrs. W. H. Hinkins is visiting Mrs. H. J. Killick at Evans.

Mrs. Heath and family, of Red Deer, and Don Thatcher are on their homesteads south of here.

Religious services are held weekly at the home of John Leisk and are fairly well attended.

Bridge Badly Needed

A strong effort is being made by property owners south-west of town to have a traffic bridge built over the C. & E. railway line, the bridge to be built on the town line in the rear of the Memorial Hospital, and connecting West Red Deer with the town by a good road.

The Local Improvement District has agreed to make a grant of \$500 towards the enterprise, and the Smith Land Co., Botsford & Co. and a number of residents of the district have promised an additional \$1,500. But the bridge will cost about \$6,000 and the town is urged to make a grant of at least \$500 towards it. It is thought if the town will make this grant the Provincial Government can be induced to assist to the extent of the balance.

The present entrance to the town from the southwest is most deplorable. The hill is steep and dangerous, the roadway near the track dark, dreary and often full of nasty mud holes, and the railway crossing is dangerous, the train headlights making it impossible for people to judge the distance trains are away.

The bridge is a great necessity, and the town should make a grant towards its construction. It will be a town asset and will be a great convenience to the farming community and the travelling public generally.

We are Sale Makers

We make DEPENDABLE SALES; GOOD SALES—Sales that make a profit for everybody concerned. We make good for the seller and give the buyer a fair chance.

We have made several such sales during the past few days, and have several good propositions which will prove to be sales this week. Here are some of them:

GAETZ AVE. NORTH—Fifty feet adjoining North End Grocery and opposite Laurentia Milk Co. property. \$3500, on terms.

HOLT AVENUE, Block 5—Fifty feet, at \$150 per foot, on easy terms.

ROSS AVE.—Seventy-five feet immediately opposite City Buildings. \$240 per foot, on easy terms.

ROSS AVE. EAST—Choice pair of Lots, high, dry and level, at \$1000 each, on terms.

BLOWERS ST.—Four Lots east of Overall Factory at \$1500 each, on terms. Will sell in pairs.

MORRISON ST.—One hundred feet close to corner of McKinnon Ave. \$40 per foot, on terms. Will sell in two parcels of fifty feet each.

We positively recommend all of the above as strictly gilt-edged.

WATCH THIS SPACE FROM WEEK TO WEEK

Malcolm & Carscallen

Phone 62 Northern Crown Bank Building

Railway Activity Will Begin Shortly Along New Lines

(Special to Calgary News Telegram)

Winnipeg, April 3.—The C.P.R. has a big building programme, which contemplated a new through line from the Canadian west, striking the present main line at Kamloops. Supt. Busted, of the Vancouver division, was promoted last week to handle all mountain construction in pursuance of this plan.

At the C.P.R. headquarters nothing has been said of any Red Deer-Kamloops extension. An official said: "Mr. Busted was placed in charge of the main line from the mountains west. J. D. McGregor is in charge of the Alberta Central C.P.R. branch, west of Red Deer." It is believed this is the line G. J. Bury referred to a month ago, as the contemplated second main line which is to be built as soon as sufficient labor and material can be gathered together.

THE CUSTOMS OFFICE.

D. G. Horn has been recommended as the collector of customs at Red Deer. Mr. Patterson, Inspector of Customs, was in town last week and over lodges in the town, in opening an office, which will be in the Customs office for a short time until the land office can be fitted up for the business.

MARRIED

At Edmonton, on Monday, April 3rd, Wright Beaumont, of Red Deer, Miss Long of Edmonton. Mr. Beaumont is well known in Red Deer, being a valued employee of the Advocate office and a staunch member of the Masonic, Sons of England, and other lodges in town. His many friends extend congratulations to him and his fair bride for a long and happy wedded life. The happy couple have taken up residence in the new dwelling purchased by Mr. Beaumont from Mr. Smith some weeks ago in Red Deer West.

Victorine H. R. Chocolates.—Hobart's.

Just \$10 secures a lot in Red Deer West.

Mrs. J. Collison will not receive again this season.

The Supreme Court sittings will open in Red Deer next Tuesday before Judge Scott.

A STRANGER IN A STRANGE LAND.—Lyrie, 2 nights, April 15th and 16th.

Mrs. J. H. Ramsay has been visiting her sister, Mrs. Jas. Cruickshank, prior to going east.

H. Crane, formerly of the R.N.W.M.P. force at Olds, has been appointed to the vacancy on the police force.

M. P. McCall has purchased the hardware business of W. H. Eyre, Tenhold, and has taken up residence, with Mrs. McCall, in the lively southern burg.

BIRTH

In Red Deer, on April 9th, to Mr. and Mrs. W. J. Stephenson, a son.

Michener, Carscallen & Co.

Synopsis of Canadian North-west Land Regulations.

Any person who is the sole head of a family, or any male over 18 years of age, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta.

The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section along his homestead. Price \$3.00 per acre.

Duties.—Must reside upon the homestead or pre-emption site for at least six years from date of homestead entry (including the time required to earn homestead patent) and cultivate the land for at least six years from date of homestead entry. A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchased homestead in certain districts. Price \$3.00 per acre. Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.00.

RED DEER-ALTA.

THE SECRET OF PAUL FLEMING

By JOHN MARCHE
Author of "A CHILD OF MANY PRAYERS," Etc.

(Continued from last week)

"I should like to dance the fifteenth with you, if I may, Mr. Fleming," she said in a pretty unassuming way, with wide beseeching, innocent eyes. "It's a country—a sort of barn dance; it will be such fun, a regular romp."

"Certainly," he said, but I have put my dam down for more than one dance, as I desire to tell you.

"Oh, I'll be pleased, you know I will," she answered with a wonderful swooping up of her eyes and even the disturbing mask could not detract or hide, "but you mustn't mind if you find I am in great request, because the majority of the men feel called upon to do the devil in my own house."

He bowed without a sound and she was gone, her soft diaphanous gown lost among the whirl of dancers. For the second time Paul placed his arm around Judith Hargrave's waist when his eyes met those of the squirrel's over her head.

"Trust her not," he said, facetiously, with a low laugh of enjoyment. "She's a cunning little devil."

"Vessels large may venture more, but little boats should keep near the shore," he responded to the warning. "I'm only a little cockle-shell of a boat and I mean to keep the land."

He moved away with a graceful drift in among the merry throng, drifting in among the merry throng.

"Die Wacht am Rhein now," he whispered, as he stepped to the front of the voluptuous music. She nodded as if she were afraid words would dissolve this dream of an ecstasy, and thus they waited on in slow, rhythmic motion, and Paul took to disturb the waltz with his eyes.

"Do you like Mrs. Wycherly?" she asked when they moved for a breathing space beneath the temporary band-stand.

"I can't say that I do," he said, guardedly.

I wonder at that; she has such a faint air about her."

"Just so, but to my mind your friend Miss Fleming is the more beautiful. You can't compare them. Miss Agnes is a bright, sunny, cheerful girl, while the other strikes one as having obtained her diabolical beauty by means of surgery by the assistance of a Familiar, or some such devilry."

"You like Agnes Fleming?"

"Well, between you and me, Miss Hargrave, I don't wish to marry either. I don't wish to marry anyone, but I wish the women to leave me severely alone, to boycott me, to send me to Coventry, to taboo me, to have the sight of me, to do, in fact, anything that will serve to let me go my way unmolested."

A sudden flush overspread her face and neck. She laughed nervously.

"Living under the same roof with so many weeks," he said remorsefully, "we understand one another. We are old and we are old and we are old."

"Well, between you and me, Miss Hargrave, I don't wish to marry either. I don't wish to marry anyone, but I wish the women to leave me severely alone, to boycott me, to send me to Coventry, to taboo me, to have the sight of me, to do, in fact, anything that will serve to let me go my way unmolested."

Deputy Minister of Agriculture Speaks of Need of Mixed Farming

Sixth Annual Meeting of Alberta Dairy Association in Session

The Alberta Dairy Association, which opened its session on Thursday last in Red Deer, was well attended. Geo. Harcourt, deputy minister of agriculture, in an address, pressed on the members the need of mixed farming and described the present day farmer of the west as "wheat crazy."

Mr. Harcourt at the outset of his speech read a letter from the Hon. J. H. Macdonald, who is at present in the east arranging for the shipment of dairy cattle to be disposed of to the farmers of Alberta. Mr. Harcourt said that next year three schools would be started in connection with the demonstration farms to teach boys and young men the science of agriculture and dairying.

Mr. Harcourt pointed out that districts where wheat is raised are not being able to carry away the crop and the province has no less live stock than it had ten years ago. Districts where stock is raised are more prosperous and farmers have more money than was the case in districts where wheat was grown exclusively.

NO DECREASE IN HORSE PRICES.

Horses do better in Alberta than elsewhere and Mr. Harcourt predicted that the price would not go down in the next twenty-five years. He cited as an instance Brandon, which "used to be the greatest growing country in Manitoba, last year sold \$40,000 worth of horses. As more settlers continue to arrive more horses will be required. The same may be said of cattle, hogs and sheep."

The milk from the Olds demonstration farm at Olds was selling in Calgary at \$2.40 per hundred, while in Toronto dairymen were paying \$1.30. Mr. Harcourt then dwelt with the class of building needed and strongly advocated not too much warmth with good light and ventilation.

THE POULTRY INDUSTRY.

He then touched on the poultry industry and pointed out the splendid market which British Columbia offers for eggs and poultry, vegetables and garden truck were also a source of much profit to growers if properly looked after.

LIVE STOCK QUESTION.

Mr. G. H. Hutton, superintendent of the experimental station at Lacombe, followed Mr. Harcourt. Mr. Hutton dealt principally with the live stock question which he said would get the chief support of the province. He deprecated the wasteful methods employed by grain farmers and pointed out that more skill was required in the raising of live stock than the growing of grain.

A GREAT DAIRY COUNTRY.

Alberta was destined to be a great dairy country, its climate was good, its air dry, it had good rich pastures and good water; it could grow to special advantage alfalfa, coarse grasses, roots, clover. Mr. Hutton then went on to take up the subject of breeding, selecting and housing of dairy stock. He dealt with light and ventilation of the barns, the various palatability and quality of the feed, giving sound valid reasons for getting the maximum production for the amount of the feed consumed.

RAISING ALFALFA.

Mr. Hutton then went on to deal with the merits and advantages to be secured by raising alfalfa which would yield at the rate of 2 1/2 to 3 tons per acre, at an average price of \$12 per acre. He advocated sowing small areas to start with to get good healthy seed and to inoculate the soil.

Tomorrow the delegates are the guests of the Board of Trade and will have an auto trip to the dairy farms of the Red Deer district.

Mr. Marker, superintendent of dairying, made an interesting address dealing with the marketing of the product, and also with the general improvement in the quality and flavor of the butter output of the creameries. He said that each creamery had two classes of patrons, the quality patron and the indifferent patron, the man who either does not understand or does not appreciate the meaning of the word "quality," and who smilingly listens to all sorts of arguments and suggestions and mentally agrees to let the other fellow follow him.

THE GRADING OF BUTTER.

Mr. Marker dealt at some length with the grading of butter, the collecting of the cream from patrons, the hauling of the same to the creameries, and put before the convention a series of resolutions adopted at the convention of creamery delegates at Red Deer, January 6, 1910.

Going back to the grading question Mr. Marker explained the method of the work for the benefit of the unfamiliar with same, and in concluding he pointed out that a creamery enjoying a quality market for its butter is not doing full justice to its best patrons unless it turns provides them with a quality market. When patrons are given a quality market for their cream they

best to take care of his cream. BACKBONE OF MIXED FARMING.

E. Michener being asked to address the delegates, impressed upon them the importance of the industry in which they were engaged. They were laying the foundation for the march of progress for generations to follow after them, and nothing would do more good than encouraging the industry in which they were engaged. He believed dairying to be the backbone of mixed farming, and he would like to see the industry flourish in like proportion to the grain industry.

On Friday morning, despite the storm, the delegates were taken out by the Board of Trade, the following offering their automobiles: Mr. Parke, A. Forrester, Mr. Chapman, Mr. Michener, Mr. Stone, Mr. Greene, Mr. Welliver, Mr. Bottorill, Mr. Meeres, Mr. Hacking, Smith Bros. & Hutton, Mr. Lord, H. H. Gaetz, Mr. Malcolm, W. B. Payne, Mr. Murray, W. A. Moore, Mr. Boyle, G. W. Smith, J. E. Cunningham, W. B. Galbraith, Mr. Woodward and Mr. Wylie. Mr. Sharman's farm was first visited. Mr. Sharman's cattle were all stabled and the visitors were much interested in hearing of the records of his cows. The arrangement of the barns, methods of milking the stock, etc., was noted by all.

Mr. Sharman's party then drove to Michener Bros.' farm, where the purebred Holsteins were inspected. After the visitors had seen the herd they were taken into the house by Mr. Michener and warmed up by some good coffee and refreshments. These were much appreciated after the windy drive.

Then taken to J. A. B. Trimble's and saw his purebred Ayrshires, numbering over 70 head. The party then returned to Red Deer, and expressed themselves as very much pleased with the trip.

FOR SALE.

Second-hand engine (steam), 30 horse power, and boiler, 55 horse power. Apply to THE CEMENT BUILDERS, LIMITED, Red Deer. Mch 20, 11.

WELCOME BY RED DEER.

The evening session was opened with a prayer by the Rev. J. H. Macdonald. The mayor welcomed the different delegates, and called on Mr. J. R. Davison, publicity commissioner for the province, who spoke on behalf of the Board of Trade, assuring the visitors of their welcome, and explaining what Red Deer was doing for the encouragement of dairying. He pointed out the advantages of Red Deer, and concluded by inviting the delegates to a trip on Friday morning to the dairy farms near town. An address was given by Mr. Harcourt on "neglected opportunities," dealing with the chances for making money out of grain growing, that are open to the farmers of Alberta. He showed that with the great amount of land that is still to be put under cultivation, horses would be a good price in Alberta for many years. That the closing up of the ranges had depleted the herds of cattle, and that with the rapid increase of population the farmers would not be able to overtake the demand for some years. In hog raising, sheep raising, poultry, and especially in dairying, there were many chances for the farmer who did not specialize in grain. Mr. H. H. Gaetz, Supr. Experimental Station, Lacombe, spoke, dealing particularly with live stock, and also told of the success that had been obtained in growing alfalfa.

MAIL CONTRACT

SEALED TENDERS, addressed to the Postmaster General, will be received at Ottawa until Noon, on Friday, the 3rd May, for the conveyance of His Majesty's Mails, on a proposed Contract for four years, viz. times per week each, between Lacombe and Rimbey via Wessieville and Bentley en route and Wessieville one way, including Rural Mail Delivery, from the 1st July next.

SECESSION.

For downright stupidity commend us to the Liberal papers guilty of mentioning secession because they fancy the people of the west have a grievance against the government.

The people of the west are a wise and a progressive people, and they know the Borden government has given them more in six months than Sir Wilfrid Laurier gave them in fifteen years.

They know the Conservative government is not responsible for the heavy losses to the crop last year.

They know it was the worst year the west has ever experienced, and they know Mr. Borden is doing all he can to help out the settler.

They also see now that Liberals care not for them or their sufferings.

Mr. Borden brought in a bill to build highways throughout Canada, and the Senate, which is filled with broken-down Liberal henchmen, knifed the bill; compelling the government to abandon it, and the Grits are boasting of having defeated it.

Alberta would have received a large grant, to be expended in building up our roads, if this bill had not been killed by the Senate.

And yet these people talk of secession. The Liberal party has talked secession since Canada was a country. The Liberals of B. C. talked secession away back in the seventies and the C.P.R. was built to defeat their efforts.

The Liberal party has been a party of secessionists off and on throughout the history of Canada. Today it is the Liberal papers that are circulating and fostering this festering falsehood in the west.

And yet it is these very people who claim they are as loyal as Conservatives, and taunt them with being flag flappers and troubled with anæsthesia and the like.

The west has no grievance against the Conservative government, and the quicker the secessionist papers understand it the better.

WILL DR. CLARK RESIGN?

In another column will be found an item giving publicity to a rumor that Dr. Michael Clark, member for Red Deer, was about to resign his seat in the Commons. The local Liberals have heard nothing regarding the rumor and think there is nothing to it. While the doctor is certainly alone and a back number as an absolute free trader in Canada, and his nose is positively out of joint since the defeat of the Laurier government, as his usefulness is gone as a disturbing element by stirring up strife between the east and west still there does not seem to be any valid reason for his resigning at the present time and putting the country to the expense of another election. The doctor is a fluent orator of the old Cobden school, but when he drifts from his pet subject of free trade for the Dominion, he is lost, and it may be that, feeling he can never adapt himself to the shifting policies of Liberalism in Canada, he has decided to step down to the seclusion of his farm, with the certain knowledge that his free trade speeches, as much as any one thing, was the cause of placing the Liberal party in the cold shades of opposition.

THE COMMON PEOPLE.

If a man in the United States gets more than \$800 a year he may congratulate himself that he is one in ten. If a woman earning her own living receives more than \$600 a year she is more fortunate than 95 per cent. of her sisters.

Such are the figures submitted after what is claimed to be an ample investigation by Henry Smith Williams, of New York, well-known publicist and scientific writer. The classes into which his research divides the adult population of America must compel thought. The new and wealthy continent for Canada does not differ very materially from her Southern neighbor in this regard—shown to be a more workaday land than most of us imagine. Half the adult males of the United States have an income of less than \$500 a year. Three-quarters have less than \$600; while, as mentioned before, nine-tenths receive less than \$800 a year.

As to women workers, the figures are still less satisfactory, although the large number of those who are not dependent upon their earnings makes a substantial difference. Three-quarters of the working women of the United States get less than \$500, while only one in twenty enjoys an income of over \$600.

These calculations, if accurate, somewhat clash with our ideas about the United States being the land of high wages, the diminished purchasing power of a dollar being considered. It should be some consolation to those whose annual incomes fall below the \$800 line that they belong to the overwhelming majority. This is a democratic country where every normal man is supposed to work, and even among the hard workers fancy salaries are exceptional. As dear old Abe Lincoln used to say, "The Lord must love the common people for He made so many of them."—Ez.

THE FARCE INVESTIGATION

How pathetic it is to see Liberal Senators, Melvin-Jones, of the Massey-Harris Co.; Frost, of the Frost and Wood Co.; Edwards, of the Cement Trust; Jaffray, of the Crow's Nest Pass deal, and Cox, of "Cox can't wait" fame, weeping over the woes of the western people! All these trust owners are appointees of the Liberal government, and part of the Grit machine. They dictated the Liberal policy.

An investigation controlled by such men is a farce, especially when the evidence taken is given by men of the partisan type of Rodrick McKenzie and R. C. Henderson. The Senate investigation is nothing but a political game. The object is not improved legislation, but the embarrassment of the Borden Government. The names of these senators, who have recently developed a sympathy for the western farmer, are found in most of these trusts. Truly, an investigation of western grievances by these men would be a joke if it was not for the colossal impudence of the whole proceeding.—Regina Province.

George Harcourt, Deputy Minister of Agriculture for Alberta, said in his address last Thursday that there were as many cattle in Alberta now as there were ten years ago. George Lane, a few weeks ago, before the Senate, said there were few cattle left in Alberta? Who was telling the truth? We will bank on the Deputy Minister of Agriculture.

A SESSION'S WORK.

During the first session of the Liberal rule nothing was done but to vote supply. How different has been the work of the first session of the new Conservative Government. Something has been done towards redeeming every pledge made by the Conservative leader.

The work done may be judged by the following:

1. The Transcontinental Railway management has been changed.
2. Steps have been taken to secure co-operation between the Dominion and provinces in agricultural work. The Federal Government has arranged to materially assist the development in agriculture.
3. Assistance to the good roads movement was promised, but the Grit Senate defeated the Government's forward policy on this matter, but the blame will have to be borne by the Trust Senators for this action.
4. The much delayed settlement of the Manitoba boundary question has been accomplished satisfactorily to the interested governments.
5. The militia system has been reorganized.
6. The old age annuities branch has been placed in its proper department.
7. Prince Edward Island has received and increased subsidy and the problem of communication with the mainland has been settled.
8. An adjustment of the financial relations between British Columbia and the Dominion has been arranged.
9. The Government has seriously taken up the matter of national harbors.
10. The Hudson Bay Railway has been settled.
11. A grain act that will meet the new conditions has been passed through parliament.
12. A commission inquiring into the condition of the civil service.
13. Legislation for the appointment of a tariff commission was defeated by the Senate.
14. The useless Laurier naval policy has been sent to the political scrap heap and steps taken to provide assistance to the Imperial fleet through co-operation with the admiralty.
15. The whole question of freight rates in the West is being investigated by the railway commission.
16. Steps have been taken to own and operate some of the terminal elevators at Port William.

If this experience is successful the whole of the terminal elevator system will likely pass into the hands of the Government.

This is only a portion of the work done during the first session of the new Conservative Government. The Liberals in their first session simply voted supply and never attempted to redeem a promise either then or since. The Conservative Government has accomplished more in one session than the Liberals did in fifteen.

It will be remembered how bitterly the Liberal party and the Liberal press berated the House of Lords for even daring to think of opposing the wish of the people as expressed by the members of the people's parliament, the British House of Commons, a short time ago. Now these same Liberals commend the Canadian House of Lords, the Senate, for holding up bills presented by the Canadian House of Commons for the benefit of the people, and Sir Wilfrid Laurier cheers them on. Surely "Whom the gods would destroy, they first make mad."

The Miners' Federation, after a long conference last week, decided to advise all miners in Great Britain to resume work, which practically settled the strike.

A CLEAN SWEEP PREDICTED IN SASKATCHEWAN.

The Weekly Province, Regina, says: Saskatchewan Conservatives expect to beat Premier McEldred's record. McBride defeated all the Liberal candidates, but allowed a Socialist to be elected. As there are no Socialists running in this province, Mr. Haultain will make a clean sweep.

Rumor From Ottawa
Clark Will Resign

Ottawa, April 4.—It is rumored here today that Dr. Michael Clark, Liberal member of Red Deer, will resign his seat in the commons. Dr. Clark figured prominently in the recent session as an opposition debater, but he is said to have found parliamentary life unenjoyable.

He is a strong free trader, and opposed to naval contributions, his views being much more extreme than any held by his fellow Liberals in the house.

The report of his intention to resign, however, lacks confirmation.

Efforts Are Made to Retain Privileges Accorded Students
Kingston, Ont., April 3.—The authorities of various eastern universities have decided to appeal to the Dominion Railway Commission for the cancellation of the order abolishing the special rates to students which are a marked advantage to students attending the Ontario and Quebec Universities from the far West or East.

Sylvan Lake News

(Crowded out last week)

J. Heenrichs has started to build a 14 storey house on his lot and has it rented for the summer.

A. LeSautier has opened his harness and repair shop.

Heenan Bros. have sold their store to Messrs. Larson and Hedemark.

Alex. Loiseleur has raised all his lots \$50.00.

T. B. Rutter has turned over quite a few lots here this week.

C. E. Brooks has hung out his sign, stating all kinds of painting done in first class style.

R. Jones has started work on another new bungalow, which he says will be for sale or rent by T. B. Rutter.

T. Guord has started to clear his lot to build his new cottage.

The lake is fast breaking up.

Aft. Loiseleur is building a pier on the ice in front of his hotel.

The last survey of the Northern Construction Company has gone into camp till spring work starts.

J. Jenkins is bringing in two car loads of effects to settle on Badoff's place, which he purchased last fall.

Property is advancing rapidly here. So much so, that anyone buying lots one day find that they are offered nearly double the next to let someone build on them. We hear that one corner lot was sold for \$250.00 for the purpose of building a pool room and dance hall. Also an offer for one block of 4 lots on the lake front was released for \$2500.00.

The lake here certainly has an exceptionally bright future before it, as it is well on the main lines to the Yellow Head Pass and the Coast.

MARRIED

(Crowded out last week)
One of Cleverley's fair daughters was married April 2nd in the person of Miss Amy, oldest daughter of A. H. Trimble, to Mr. A. Prout, of Calgary, Rev. P. Locke performing the ceremony.

The happy couple received the congratulations of their numerous friends and, after partaking of a bounteous wedding feast, left by the evening train, followed by the best wishes of a large number of relatives and friends, who were at the train to see them off.

(Edmonton Journal) | football. Yet that body has chosen

From the time that the Liberals obtained a majority in the Senate, there was no longer any danger of important legislation. It was the tool of Sir Wilfrid Laurier, during all these years. It was not until now that he has been retired from the treacherous benches. In throwing out the bill sent up to it, the Senate is dealing with him. Such a condition of things should not be tolerated in a free country.

There are to have an upper chamber it must stand for something in itself, not derive its whole life and being from the party leader who is to have nominated the members.

THE SENATE

(Caldwell Herald)

Once more the Canadian senate appears to seek self-destruction. In blocking the government's tariff commission bill it has interposed a bill of its own, which is replete with which it is supposed to have nothing whatever to do. The raising of revenue cuts with the commonsense tariff is primary, and the country's revenue, and the tariff commission is the government's solution for the equitable administration of the tariff. The bill before the senate is a bill to bill deal primarily with the country's revenue, forming an important part of the machinery for that purpose. It is a proposition that the senate should have been very reluctant to interfere; and especially was it a proposition which the senate should have no concern with. It is a proposition which should have been used as a political

and different hair dressing, a comb which will be renowned the world over, it is applied to the scalp. There is not a particle of stickiness in it; it is not greasy; it has a delicate and refined odor, and it is the only hair dressing that will make hair grow if the hair root still shows the least sign of life.

Try a tube of Parisian Sage. It will brighten up the hair in two or three days.

Parisian Sage is guaranteed by Gaezt-Cornett Drug & Book Co., 105 West 42nd street, New York City. It stops itching hair and scalp itch in two weeks, or money back. It is particularly in demand by women of refinement, the only hair dressing that compels admiration. Price 50 cents a large bottle by Gaezt-Cornett Drug & Book Co., or direct, all charges prepaid by money order or check to the Gaezt-Mfg. Co., Fort Erie, Ont.

Dublin, April 1.—Many thousands of residents and others who arrived in special trains attended a great home rule demonstration here Sunday. Four big platforms had been erected on O'Connell street, from which the speakers addressed the crowds. All the buildings in the vicinity were decorated. A hundred bands participated and the principal corporations except that of Belfast attended in state.

John Redmond predicted that a home rule parliament would be established on College Green sooner than the most sanguine expected.

The Western Canada Trade Association in its current issue has further particulars of the alleged combine among the wholesale fruit and produce merchants of that city, a subject to which the merchants in all surrounding cities and districts are now alluding. It would also be affected by any understanding on the part of the wholesalers regarding prices. The retailers in Calgary have taken a hand in the matter and, after holding

Tariff Commission Bill is Knifed by Liberals in Senate

Ottawa, April 2.—The government list of bills which its royal highness the Duke of Connaught gave assent on the eve of prorogation did not include the bill to create a tariff commission, or any other bill on the bill providing for a subsidy for the Ontario government, Temiskaming and Northern Ontario railway.

Owing to the fact that the first mentioned bills in the senate and the formal rejection of the latter on a division of 21 to 8, these three bills fell by the wayside.

The most important and far-reaching result of the deadlock between the two houses will be that no permanent tariff commission can be named during the recess, and in so far as can be judged at present tariff affairs will remain in statu quo until parliament has reassembled.

BILL SLAUGHTERED.

The tariff bill, to which much time and labor has undoubtedly been given, was slaughtered because the government would not agree to accept an amendment providing that in the event of an application being made for an increase in the tariff, the board should report as to certain matters, including the number of shareholders of the company asking for an increase and the amount of dividends paid.

As soon as the house met at three o'clock, Hon. W. P. White, minister of finance, gave reasons why the government would not accept the senate's fourth amendment to the bill to establish a permanent tariff commission. The amendment was as follows:—

THE AMENDMENT.

Provided always that, in all cases where application for an increase of duty is made to the government, the commission shall, in addition to reporting on the above matters, make a special report, which in the case of any industry established:—

(a) The number of factories now existing and the number of hands now employed, giving in each case the number of men, women and children respectively;

(b) A list of the shareholders and the number of shares held by each of the shareholders;

(c) The dividends paid during each of the preceding ten years;

(d) The wages of hands and the number of hours worked per week;

(e) The total amount of goods of the kind on which such increase of duty is demanded, consumed in Canada, whether home-made or imported.

The first part of Mr. White's speech was along the lines followed by him on Saturday when he gave his first refusal to accede to the amendment. It should be refused, he said, if for no other reason than that it is badly drafted and meaningless having regard to the content of the bill.

Some of the subsections proposed, Mr. White said, were quite unintelligible.

WOULD HAMPER WORK.

The commission which it was supposed to name, would not have the power to increase or to lower the tariff, but get information on which the government would act. The proposed amendment would mean that in every instance when a letter is received at the department asking for an increase in the duties a report would have to be made by the commission. It was not desirable, he said, that the work of the commission should be unduly hampered.

Mr. White said that, so far as he was longer than was expected because the government had determined to carry out its pledges, including

the pledge to establish a permanent tariff commission. The proposal had been endorsed by the people, and the government was endeavoring to carry out its promise. In conclusion he said that the government had decided to stand by its attitude of Saturday, and he would move that a message be sent to senate, declaring that the house has decided to adhere to the terms the message sent to the upper house on Monday.

LAURIER REPLIES.

"There is none so blind as he who will not see," said Sir Wilfrid, in opening his reply to Mr. White, "and the minister of finance shows by the speech that he has just delivered that he is afflicted with such blindness."

Mr. White's entire speech had been devoted to a criticism of the wording of the amendment. He had spent much time in pointing out an ungrammatical error in it. Surely if the minister was sincere it would have been better to call a conference with the senate and, if required, have the amendment re-drafted."

Sir Wilfrid said that he feared that Mr. White's real reason for refusing to accept a conference was that he was opposed to giving the people the safeguard which the amendment provided for them. Mr. Ames had said that the commission was to be put in the hands of the people, and that it was in sympathy and political and partisan appointments. Here he could see the underlying reason for the refusal for a conference.

"For my part," concluded Sir Wilfrid, amid Liberal cheers, "I am glad to share the responsibility of killing this bill. It is not an unimpaired misfortune and it is an unimpaired blessing."

Mr. Foster followed. He doubted if in the memory of older men in the house such a situation was ever before witnessed as presented itself before them now.

RECEIVED A MANDATE.

The government, fresh from the people, the fount and source of all power. They had received a mandate from the people to carry out the platform which was set out during the late campaign. In that campaign Mr. Borden made his position and platform clear, and one of the planks of that platform was that a tariff commission was to be appointed to secure information regarding economic and industrial conditions.

For this a mandate was given and unmistakably affirmed. Now when this government sought to carry out its policy as approved of by the people an obstacle is placed in its way. And by whom? asked Mr. Foster.

KILLED LAST FALL.

In that campaign which was fought out last September, October and November, the power of the gentleman opposite was killed and his party almost destroyed; but, like a busy bee when the sun shines, storing its honey, he, while in power, placed his party heelers in opposite portion of the house to save him when he and his party were politically dead.

He has just told us that he is willing and glad to share the responsibility of killing this bill. Well, it is not the senate that will have to bear the responsibility. It is the gentleman who created that senate and now asks the senate to do his bidding. He is using the men he placed in the senate to defeat the will of the people.

After a short delay black rods summoned the members to the upper chamber, and the proceedings of the commons were over for the session.

Then airships won't have to be built with reference to lightness of construction at all. They can be built as heavy and as big as we want."

"We don't know anything about gravitation," said Prof. Wetzel in discussing the possibilities of insulation. "We know what it does, but we do not know what it is. Does gravitation travel, as do rays of light? I think, some time, we shall prove that it does."

"Is it like electricity? Maybe it is electricity. It may be that all the objects in this world that we know are only forms of electricity."

"Sometimes, however, it seems to me that gravitation is the opposite of electricity. If we place two electrified objects near together, currents of electricity pass out from them, and tend to force the two objects further apart. This repulsive force of electricity is one of its chief characteristics."

"But, if we place two uncharged objects near each other, their tendency is to rush together, which is the opposite of the electrical tendency."

"Now notice: If you place a piece of glass between two electrified objects, the glass prevents the passage of the electrical currents, because glass is a non-conductor of electricity."

"If gravitation is the opposite of electricity, it is not impossible that somewhere in the realm of nature there is a material that, acting like glass on electricity, will prevent the passage of the currents of gravitation. In other words, somewhere there may be a material that will insulate objects so that neither the earth nor other objects can attract them."

"That would mean the mastery of the air."

"It is not impossible that in rare cases a gravitation-insulating material may exist even now. We do not yet know that radium itself is not this very material."

"There are many of knowledge yet to be gained about gravitation."

Manitoba Will Have Line to Hudson Bay

Government Also Spending \$200,000 Annually on Highways for Province

Winnipeg, April 1.—The feature of Saturday afternoon's session of the legislature was the second reading of the bill respecting provincial highways by Premier Roblin. In this bill the government is providing for a start by the attitude of Saturday of \$200,000 for the construction of permanent and uniform highways across the province.

The premier said that the time had arrived when the government would give strict attention to this most important feature of the development of the province.

The second reading of the bill to guarantee certain securities of the Canadian Northern Railway to ensure the construction of a line of railway from Winnipeg north to connect with the Dominion line to be constructed from Le Pas to Hudson's Bay was passed.

The resolution of the premier asking for a royal commission to enquire into the claims of the original white settlers who came to the Red river country between the first of January 1830, and the date of the union of the province of Manitoba with the Dominion of Canada, in order that the same may be speedily adjusted and justice be done in all premises, was unanimously adopted by the house.

The resolution is in connection with the grants of land these settlers were supposed to have received under the statutes but which so far, in spite of many petitions, have not been given. The public utilities bill was set down for its third and final reading on Saturday, but at the request of the opposition it was allowed to stand until Monday.

A Simple Treatment That Will Make Hair Grow New Sold in Canada.

Every up-to-date woman should have radiant hair.

There are thousands of women with harsh, faded, characterless hair, who do not try to improve it.

In England and Paris women take pride in having beautiful hair. Every Canadian woman can have lustrous and luxuriant hair by using SALVIA, the Great American Sage Hair Tonic.

Every reader of the News can have an attractive head of hair in a few weeks by using SALVIA.

Gaetz-Cornett Drug & Book Co. sell a large bottle for 50 cents, and guarantee it to banish dandruff, stop falling hair and itching scalp in ten days, or money back.

SALVIA is a beautiful, pleasant, non-sticky hair tonic.

The ingredients of Magic Baking Powder are plainly printed on each package. The makers of the numerous alum baking powders never do this, but they have been known to print the words "No Alum" on their labels. This is no guarantee—it is fraud. See that all ingredients are stated.

How We Launder Your Shirts

We launder Men's Negligee Shirts a little better than most laundries do—a little more the way you want Your handkerchiefs.

We give them a careful washing, starch them without sticking up the sleeves and body with surplus starch—and we iron them so they look and fit like new.

We shape the cuffs to fit your wrists, and give them a firm, stiff finish.

Our service costs no more than inferior work. Why not enjoy it?

SPRING Skin Troubles

Mothers who have used Zam-Buk know how it cures Spring Skin Troubles in Children or Adults. Mothers who have not yet tried it should note these facts:—Zam-Buk was unknown ten years ago, yet such is its merit that to-day it has become the standard salve in the homes of four continents. Zam-Buk is purely herbal; contains no poisonous coloring matter; is used by leading medical men; used in the British Army and Navy; and by all best fitted to know the needs of the skin. Make it your family balm!

Mr. J. C. Bates, of Burks Falls (Ont.), says:—"Zam-Buk cured my three children, who were all broken out in sores to such an extent that it was pitiable to see them. These sores had defied all remedies previously applied, but I am glad to say Zam-Buk healed them."

Miss S. G. Hamilton, of Alliston (Ont.), says:—"My face and hands were one mass of pimples and blotches. These would itch, and when rubbed, broke out into sores. Whenever I put water near the affected parts it caused a stinging sensation and much pain—just as if I had been scalded. Nothing that I applied seemed to do me any good until I tried Zam-Buk. That gave me relief, and a few weeks of the Zam-Buk treatment resulted in a perfect cure."

Zam-Buk cures pimples, skin eruptions, cuts, burns, bruises, bites, festering sores, ulcers, blood-poisoning, eczema, ringworm, bad leg, detached nails, and all skin diseases and injuries. Rubbed well into the parts affected, it cures neuralgia, rheumatism, and eczema. All Druggists and Stores sell at 25c. box three for \$1.25, or post free from Zam-Buk Co., Toronto, for price.

Zam-Buk

Board of Trade Helps Home Re-Union

The Board of Trade will assist worthy Old Countrymen in Red Deer or district to bring out their wives and families. A large part of the money necessary for transportation will be advanced by the father, and is repaid by him to the Board in monthly or monthly payments, extending over perhaps a year.

Anyone wishing help should write for application forms and further particulars to Mr. J. H. Davidson, Northern Crown Bank Building, Red Deer.

It Has Been Proved

That Machel's Nature's Scalp Tonic has a record for growing hair—full swing at this point backed by the remedy ever discovered that is similar to the natural hair foods or liquids of the scalp. Removes dandruff, prevents falling hair. Each package contains a packet of Machel's Dry Shampoo Powder. Price for complete home treatment, \$1.00. Sold and guaranteed by G. B. Parker.

Lacombe to be Heard From

Lacombe, Alta.—A vigorous publicity campaign will shortly be in full swing at this point backed by the newly organized industrial bureau, of which every prominent business man in the town is a member. A publicity commissioner will be appointed at once, and a liberal appropriation is being arranged for with a view to making the campaign a success from the start. The advance guard of homeseekers is now beginning to arrive from the States and the Old Country; and all indications point to a season of exceptional activity in every line of business. Very extensive construction work is planned for this section by both the G.T.P. and C.N.R. during the coming season. This district has recently been attracting considerable favorable attention for its high-grade cattle and live stock, and the dairy industry is being steadily developed. Such breeds as the Shorthorn, Hereford, Angus and Ayrshire flourish in the vicinity as a result of the excellent fodder and luxuriant pasturage; while the water supply is pure and plentiful, and the climate is relatively mild. Lacombe-bred cattle have in the past taken many prizes at Western stock fairs.

Bolduan's Poison Grain

IT IS SO EASY TO USE AND IT KILLS THE GOPHERS

Bolduan's Poison Grain is the safest Gopher poison to use, for you don't have to touch the poison to mix it.

It is the only "Ready for Use" Gopher Poison. All you have to do is to cut a slit in the carton and shake a few kernels down in the gopher holes.

The time to kill gophers is NOW, in the spring time. Remember now is the breeding time. Every gopher you kill now means a dozen less a few months later.

Bolduan's Poison Grain is the favorite Gopher Poison, because the method is so simple, always ready for use, so easy to use, and it does kill the gopher.

The Poison is set in the kernel, and it will retain its poison for several weeks and months even when in the ground.

The Gophers cannot help but eat it, because it is so scented that it attracts the animals' attention.

We guarantee it to give satisfaction, or money refunded.

LIBERAL SAMPLE FREE

We want to show you, so we will give you a sample for the asking.

Specialties, eye glasses and artificial eyes the very best at moderate charges. Absolute satisfaction guaranteed.

Messrs. Walter Ellis and J. Bright, with their families and party, arrived at Red Deer on Wednesday from Bristol, England. These men are dairy farmers. Mr. Ellis having milked forty cows on his farm to supply milk for Bristol. They will purchase farms here and expect to go into dairying quite extensively.

There are dozens of good positions ready for the persons who are capable of taking them. Why not prepare yourself for such a position now? Now is the time to take a course in the Red Deer Business College, as new classes, both day and evening, have started since Easter.

For terms apply R. Kinkade, room 3, P.O. Block.

Wednesday last John Richards sold a splendid young Yorkshire bull, "Woodlands White Swell," aged eight months, for the sum of \$175.

The young animal was raised by Mr. Richards and was from the champion cow, Lady Nora, and is a splendid specimen of the breed, and will be heard of in the prize ring in the future. This bull would bring from \$100 to \$500 in the east.

The high stand taken by Jimmy Richards, the fifteen year old son of J. J. Richards, at the Old Government Short Course in Agriculture, was most creditable. He took the gold medal in judging beef cattle, being eighteen points above the next competitor. In dairy cattle he made 95 points, coming within one point of being the winner of the medal.

His second also in judging grain, and won the grand aggregate, leading the school by 4 points.

The first football game of the season was played at the school grounds on Good Friday between the Firemen and the High School. The High School seem to be about the same strength as last year. Many of the Firemen were new players and some of them showed up pretty well, and by all appearances they are going to put a strong team into the field.

The Firemen scored first on an individual rush and shortly afterwards they got another on a penalty kick. The school scored on a maul ball and the final score stood 2-2. R. Gee refereed.

The curling season ended last week and the last event, the singles, was won by Bob Brydie in the semi-finals from Len Porter in about two inches of water. J. Mann and A. T. Stephenson were to play for semi-finals to meet Brydie, but failed to connect. Bob, therefore, was the prize. He will wear a plug hat next Sunday.

Mr. J. F. Cogswell, Assistant to Norman S. Rankin, General Publicity Agent, Canadian Pacific Railway at Calgary, called at the Board of Trade office on Monday. Mr. Rankin's department is reorganizing the publicity work of the natural resources branch of the C.P.R. and is enlisting the co-operation of the Board of Trade here.

Mr. Rankin has found the letters of Red Deer farmers, published in the anniversary number of the Albertan, very useful, and has arranged with Mr. Haskin to get copies of any further letters he may secure. These, and photographs of the district, will be inserted in a number of the American and British magazines. It is part of the policy of Mr. J. S. Dennis, the President, to preach the opportunity for mixed farming here, and the experience of the Red Deer farmers will be of exceptional value along that line.

Sylvan Lake

H. Jamoy is building a new house. Fred Guard has started his cottage to be built in the old Dutch style.

The C.N.R. have again started to take men up to the Mountain House.
